# SOCRATES
LEGO® Robotics

SUMMER CAMP 2019

LEGO® Education WeDo 2.0 robotics kits makes science come to life through hands-on tasks, real-world applications, and relevant technology that engages the mind.

Scholars will build and program LEGO® robots to think, move, and react through a series of challenges while learning several aspects of engineering: automation, problem-solving, and programming.

Through the combination of collaboration, discovery, LEGO® bricks, and intuitive drag-and-drop software, scholars are empowered to ask questions, define problems, and design their own solutions.

Ready to register?

Limited seating. Visit us online at:
www.socratesacademy.us

Camp Hours
9:00 AM - 12:00 PM

Dates
Session 1: July 22 - 26

Session 2: July 29 - Aug. 2
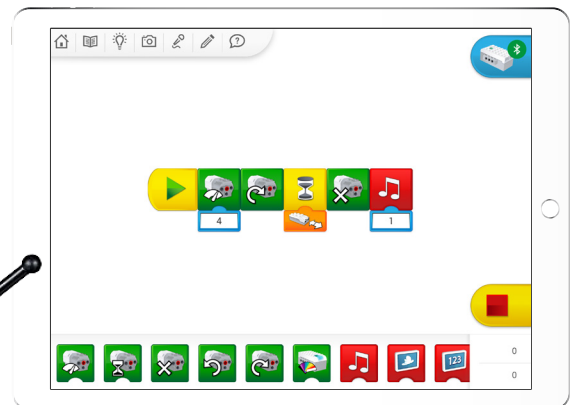

Session 3: August 5 - 9

Fees
$220 per week

Age Requirements
Rising 3rd - 5th Scholars

What to Bring
Socrates Academy will provide all camp supplies. All you will need to pack is a water bottle and a snack. We are a nut-free camp, so please keep this in mind when packing a snack. Thank you!

While LEGO® robots remain at camp, photos of robots and LEGO® creations are presented at the end of each week.
